

DM S40
Sonic Measure

DM S40 measures up to 40 ft. (12 m) using ultrasonic technology.

Key Features

- Fast, automatic measurements
- Error indication when target is unclear
- Small and easy to carry
- One-button simplicity
- Measures in feet/inches and metric units

Applications

One person can take inside measurements to estimate:

- Quantity of paint, wallpaper, and paneling for a job
- Quantity of tile, carpet, and other flooring needed
- Volume requirements for HVAC
- Square footage for real estate work
- Sizes of areas for equipment positioning

The **ZIRCON** Advantage

- Easy-to-use LCD display makes it easy to calculate length, area, and volume.
- Error indication instead of false readings when target is not capable of giving an accurate measurement.
- A new, smaller size to fit your hand and carry in your pocket.
- Only one button to push for ease of use right out of the package.
- Switch from feet/inches to metric units with the push of a button.
- Continuous measurement reading for positioning items.
